Annual Report 2014

Dear members, sponsors and friends,

2014 is drawing to a close and we would like to inform you about the very successful course of our activities this year with this annual report of the organization "Bangladesch Jugendförderung e.V."

Our activities in supporting underprivileged students in Bangladesh were continued successfully in 2014.

Supported students

In 2014 we have supported 292 students (162 girls & 131 boys) from 20 districts in Bangladesh. Many members who visited Bangladesh recently also visited schools and supported students.

The impression of the visitors was that the students and their families are very much pleased and thankful for the financial support from Germany. The supported students requested the visitors to convey their heartily thanks to all members and donors. With our support the students are able to continue their schools or colleges. They all come from very poor families. Their parents are typically boatmen, fishermen, day labourers and farmers with very low income.
