

## Annual Report 2021

Dear Members, Sponsors and Friends,

We thank you for your loyalty to our association and hope to see you again soon at one of the next events, which are now to take place again after the long period of the pandemic!

Last year, despite ongoing restrictions due to the corona pandemic, we were able to continue supporting needy students in Bangladesh. We compile an overview of the most important facts and data of our voluntary work for you here.

### Sponsored Students

In 2021, a total of 358 students (including 227 girls and 131 boys) from 23 areas in Bangladesh received our support. Of these, 32 students received their SSC (Secondary School Certificate) after the 10th grade and 25 students the HSC (Higher Secondary School Certificate) after the 12th grade.

We are pleased that your support allows significant progress for our activities.

### Distribution of Scholarship Funds

In 2021, a total amount of € 24,232.70 in regular support was sent to Bangladesh at intervals of four months.

### Financial Situation of the Association

As of 31.12.2021, we had 172 members. The sum of the membership fees in 2021 amounted to € 21,829. This represents a minimal increase compared to € 21,607 in 2020. Fortunately, we received donations of € 8,762.

All members were sent the donation certificates for the year 2020 in January 2021 and for the year 2021 in February 2022.

Because we consistently volunteer, our administrative costs are significantly low. In 2021, the costs amounted to only € 633. That is 2.07% of our revenues.

## Activities of our Association "Bangladesch Jugendförderung e.V." in 2021

Last year, three board meetings were held, which mainly dealt with organizational issues.

The general meeting could take place on 24.10.2021 in Eine-Welt-Haus on a small scale after the corona rules allowed it again under special conditions. Here, the elections of the association's organs, which have been pending since 2020, could also be made up. In order to return to the regular 2-year cycle, we want to hold the next elections in autumn 2022.

The Working Committee continued its work for our association regardless of the external circumstances and exchanged information several times via online meetings and by email.

In our program, in which we support students with a one-time amount during the application phase for the university, we selected one candidate for funding last year.

Still slowed down by the corona lockdowns, we were unfortunately unable to organize any other event besides last year's general meeting. We would now like to revive the association's activities and organize interesting events for you. We will inform you of this in good time.

We cordially invite you to actively participate in our association work. Also contact us if you would like to be invited to our regular meetings and gatherings.
